

THE ULTIMATE IN
LUXURY AND STYLE

Silent Gliss

50MM VENETIAN BLIND SYSTEMS

Stylish shading

Silent Gliss offer aluminium, wood or leather slat venetian blinds. Aluminium slats suit minimalist interior schemes, wood creates a warm feel, whereas leather adds the ultimate sense of luxury!

PRECISE OPERATION

Venetian blind systems offer a practical and flexible shading solution without compromising style. The slats can be finely adjusted to manage the light, glare and heat in a room.

ARRAY OF COLOURS

Choose from 9 aluminium colours, 43 wood finishes and 37 leather colours. From subtle satin finish to bright high gloss, whatever design statement you want to make there is a colour to suit.

FULLY COORDINATED

Silent Gliss take your slat choice and coordinate the headrail and cords to give you the best finish possible. Keep it simple for a sleek look or add fabric tapes for a softer appearance.

FULLY CUSTOMISED

We understand that sometimes you want a fully customised blind. When selecting a leather slat you can choose the colour of your headrail, cords, stitching colour and even the finish on the eyelets!

TOTAL CONTROL

Silent Gliss venetian blinds can be cord or electrically operated.

The cord operated system features the unique “Quick Drop”, one small pull on the operating cord and the blind will descend in a steady, controlled motion. The cord can then be used to adjust the tilt of the slat and to raise the blind.

The electrically operated blinds can be used with radio controlled wall switches or hand-held remotes – control at the touch of a button.

Silent Gliss is the leading global supplier of motorised and manual curtain and blind systems in the high quality market. We offer our customers the very best in terms of quality, design, technology, service and individuality.

Our core competence is innovation – inspired and driven by customer needs. A team of highly skilled and experienced professionals work on new developments as well as on the improvement of existing products. With committed customer support teams, Silent Gliss provides an extensive range of services including technical advice, fitting services and maintenance all around the world.
