Dear Mr. Bonisch,

During the COVID-19 pandemic, we are working closely with our local health care partners to expand our capacity to increase the number of patients and residents cared for at St. Joseph's Parkwood Institute. Thank you for your generous donation that will help us provide care to more patients during these challenging and uncertain times.

Your generous gift of hardware to enable the installation of patient curtain systems will allow St. Joseph's to create new patient areas – creating greater capacity for us to care for more patients. The creation of a new unit will help to alleviate the stress on the acute care system in London and ensure additional resources are available for critically ill patients.

Thank you for caring and for stepping forward to help St. Joseph's Health Care London meet the health care needs of our community during this challenging time. Thanks to you, patients will receive exceptional care in safe and dignified environments. We are so very blessed to have your support.

With heartfelt gratitude,
