

Silent Gliss

BESPOKE CURTAINS

Made-to-measure curtains

Silent Gliss made-to-measure curtains combine premium curtain track systems with a remarkable range of fabrics sewn by our experienced team of curtain makers, conveniently ordered, made and delivered from one location.

Select from our pleated and Wave curtain headings made from carefully selected and tested fabrics from The Collection by Silent Gliss.

ONE STOP SHOP FOR CURTAINS

Precision engineered curtain tracks combined with beautiful fabrics sewn by in-house specialists, all under one roof. Silent Gliss offers the ultimate one-stop-shop for your bespoke curtain requirements.

PLEATED PERFECTION

Pleated curtain headings provide a refined, understated aesthetic, complementing traditional curtain designs. They are particularly useful in spaces with limited fitting depth and for layered curtains, ensuring a cohesive and space-efficient solution.

UNDULATING WAVES

The Wave curtain heading transforms traditional curtains into a striking, modern design statement.

Structured yet fluid curves undulate to create a dynamic curtain with a neat, uniform stack.

Wave Curtain

Silent Gliss has created a unique curtain heading system that turns traditional curtains into a striking, modern design statement.

As an alternative to traditional headings, Wave offers a more contemporary look throughout the curtain drop. When opened, the curtains stack back neatly, and when closed the fabric hangs in a smooth, continuous wave.

NEAT CURTAIN STACK-BACK

Sinuous curves when your curtains are closed transform into a neat stack-back when opened.

80mm Wave for a deep,
defined shape.

60mm Wave for a subtle,
flowing finish.

PLANNING YOUR CURTAIN

Wave is offered in 60mm and 80mm depths to accommodate preferred styles and fitting considerations.

Available across a wide range of hand, cord and electrically operated tracks, using our unique 2C silent glider you are assured of the same premium performance you'd expect from Silent Gliss.

Select from a broad range of fabrics from The Collection by Silent Gliss, all tested and proven to deliver a stunning wave finish throughout the drop of the curtain.

The reinvention of the classic curtain.

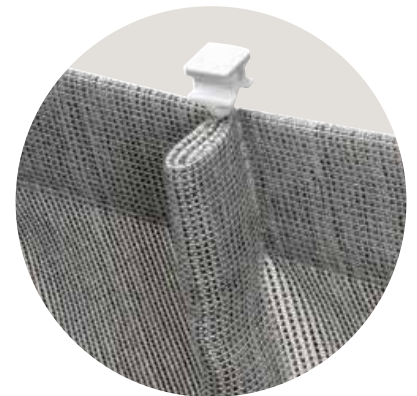

Swiss Pleat Curtain

The Swiss Pleat is a unique curtain heading only available from Silent Gliss. Using bespoke high-performance gliders sewn into the curtain, it is an understated alternative to traditional curtain headings.

Offered in two fullness options, the shallow heading design is particularly suited to layered or lightweight curtains, or where fitting space is limited. Swiss Pleat curtains are available on a wide range of Silent Gliss hand, cord and electrically operated tracks, including Metropole.

Swiss Single Pleat –
1.5 fullness for a lighter curtain.

Swiss Double Pleat –
2.0 fullness for a denser curtain.

Pleated Curtains

PENCIL PLEAT

Pencil pleats offer a classic and versatile appearance, with neat gathered pleats adding a touch of elegance to your curtains. They are easy to hang and offer some adjustability making them a versatile choice.

SINGLE PLEAT

Single pleat headings provide a sleek and modern aesthetic for a clean, minimalist look. Their simple and uniform structure allows curtains to hang beautifully with a tailored appearance. Using less fabric, they are a stylish and cost-effective curtain design.

Silent Gliss pleated headings are suitable for all curtain tracks and Metropole systems.

Pencil Pleat Curtain

Single Pleat Curtain

Layered Curtains

TWICE AS EFFECTIVE

Layering curtains adds depth and dimension. Combining fabric colours and textures creates a more visually appealing and dynamic space, enhancing the overall aesthetic of your room.

Double curtain tracks can be fitted to the ceiling or wall. For a more decorative finish consider using two Metropoles fitted on our universal wall fix brackets.

TWICE AS FUNCTIONAL

Blending sheer and dimout fabrics gives you the flexibility to control the amount of daylight entering your room. During the day sheer curtains gently diffuse natural light, whereas heavier, opaque fabrics provide room darkening and a cosy ambiance.

Double Metropole using Universal Smart
Fix Brackets

Reduce space required by combining Wave
and Pleated heading styles.

Fabrics — beyond decoration

Silent Gliss offers a wide range of fabrics tested and proven to work on both the Wave and Swiss Pleat curtain headings.

From sheer to blackout, plain and textured fabrics, The Collection presents curtain fabrics in colours to complement any interior design scheme.

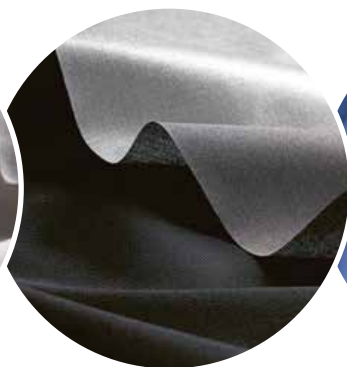

All Silent Gliss fabrics are flame retardant, and many have proven acoustic performance and sustainability credentials. The Collection also includes fabrics with antimicrobial and antibacterial properties for healthcare environments.

Check out the Silent Gliss online fabric finder.

Textured fabrics which closely resemble natural fibres but are flame retardant

Technically superior fabrics with an aluminium backing for increased heat and light reflection

Dimout fabrics for room darkening

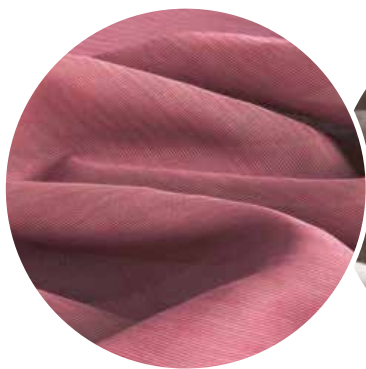

Antibacterial and stain-resistant fabrics suited to healthcare environments

COLORAMA® – A SILENT GLISS EXCLUSIVE

In 1981 Silent Gliss introduced an exclusive fabric that was to transform the internal shading industry: Colorama.

This sophisticated, soft and flame retardant fabric is woven to guarantee optimum hanging performance for both Swiss Pleat and Wave curtains. Such is its versatility it's available in thirty colours, three transparencies and various finishes including Acoustic, Multicolour, Eco and Bioactive. In addition to being highly decorative Colorama has OEKO-TEX® Standard 100 and Cradle to Cradle Certified™ sustainability credentials.

Colorama Acoustic with superior acoustic performance which belies its sheer appearance

Colorama Multicolour woven with multicolour yarn for attenuated colour and texture

Colorama Eco made from 100% recycled pre-consumer polyester

Colorama Bioactive, antibacterial with inherent silver ions, suited to healthcare environments
